Head & Neck

IRB #6918
Phase III study involving Postoperative Radiation Therapy +/- Cetuximab

IRB #18544
New study to be available soon

HPV positive
IRB #18544
New study to be available soon

HPV negative
IRB #18544
New study to be available soon

1st Line
No Trials Currently Available

2nd Line
No Trials Currently Available

Squamous Cell Carcinoma of the Head and Neck

Surgical

Pre-op Intervention

IRB #17753
New study to be available soon

IRB #9434
Prophylactic anticoagulation for the prevention of venous thromboembolism (VTE)

IRB #10613
Phase II study of transoral surgical resection followed by low-dose or standard-dose IMRT for p16+ oropharynx cancer

IRB #1957
New study to be available soon

Post-op Intervention

IRB #6918
Phase III study involving Postoperative Radiation Therapy +/- Cetuximab

Recurrent Metastatic

Cutaneous Squamous Cell Carcinoma

Surgery

Post-op Intervention

IRB#8092
Phase II study involving concurrent radiation and chemotherapy versus radiation alone

Salivary Gland Cancer

New study to be available soon

No Trials Currently Available

No Trials Currently Available

IRB #11957
New study to be available soon
